

Sana Biotechnology Announces Several Preclinical Data Presentations at the 64th American Society of Hematology Annual Meeting

November 3, 2022

SEATTLE, Nov. 03, 2022 (GLOBE NEWSWIRE) -- Sana Biotechnology, Inc. (NASDAQ: SANA), a company focused on creating and delivering engineered cells as medicines, today announced that six abstracts have been accepted for presentation, including two oral presentations, at the 64th American Society of Hematology (ASH) Annual Meeting to be held December 10-13, 2022 in New Orleans, LA.

"The presentations at ASH will showcase the potential for both our allogeneic CAR T cell and *in vivo* delivery platforms to develop differentiated drugs for patients with hematologic malignancies," said Terry Fry, Sana's Senior Vice President and Head of T Cell Therapeutics. "We are initially developing therapeutics for patients with lymphoma, leukemia, and multiple myeloma, and we look forward to presenting data on CD19-, CD22- and BCMA-targeted therapeutic candidates at the meeting."

Details of the oral presentations are as follows:

Title: Engineered Hypoimmune CAR T Cells Provide Lasting Tumor Control in Fully Immunocompetent Allogeneic Humanized Mice
Abstract Number: 485
Session Name: 703. Cellular Immunotherapies: Basic and Translational IV
Session Date: Sunday, December 11, 2022
Session Time: 9:30 – 11:00 a.m. CT
Presentation Time: 10:30 a.m. CT
Location: Ernest N. Morial Convention Center, 388-390
Presenter: Sonja Schrepfer, PhD

Title: Efficient and Specific Multi-Locus Editing of Allogeneic CAR T Cells for Hypoimmunity during Large Scale Manufacture Using Cas12b
Abstract Number: 663
Session Name: 711. Cell Collection and Processing I
Session Date: Sunday, December 11, 2022
Session Time: 4:30 – 6:00 p.m. CT
Presentation Time: 5:00 p.m. CT
Location: Ernest N. Morial Convention Center, 220-222
Presenter: Christina Chaivorapol, PhD

Details of the poster presentations are as follows:

Title: Functional T Cell Assays Are Predictive of Pre-Clinical Potency to Generate Allogeneic, Hypoimmune CD19 CAR T Cells
Abstract Number: 1974
Session Name: 703. Cellular Immunotherapies: Basic and Translational: Poster I
Session Date: Saturday, December 10, 2022
Session Time: 5:30 – 7:30 p.m. CT
Location: Ernest N. Morial Convention Center, Hall D
Presenter: Darin Salloum, PhD

Title: A Dual-Antigen Targeting, Hypoimmune Allogeneic CAR T to Evade Innate and Adaptive Immune Rejection and Overcome Antigen Escape
Abstract Number: 1988
Session Name: 703. Cellular Immunotherapies: Basic and Translational: Poster I

Session Date: Saturday, December 10, 2022
Session Time: 5:30 – 7:30 p.m. CT
Location: Ernest N. Morial Convention Center, Hall D
Presenter: Adam Johnson, PhD

Title: BCMA-Targeted, Hypoimmune Allogeneic CAR T Cells Exhibit Potent Anti-Tumor Activity Together with the Ability to Evade Innate and Adaptive Immune Rejection in Pre-Clinical Tumor Models

Abstract Number: 3168

Session Name: 651. Multiple Myeloma and Plasma Cell Dyscrasias: Basic and Translational: Poster II

Session Date: Sunday, December 11, 2022

Session Time: 6:00 – 8:00 p.m. CT

Location: Ernest N. Morial Convention Center, Hall D

Presenter: Jeremy Kinder, PhD

Title: CD8-Targeted, Integrating Viral Vectors Transduce Resting T Cells and Enable Extracorporeal Delivery (ECD) for Rapid CAR T Cell Therapies

Abstract Number: 3457

Session Name: 801. Gene Therapies: Poster II

Session Date: Sunday, December 11, 2022

Session Time: 6:00 – 8:00 p.m. CT

Location: Ernest N. Morial Convention Center, Hall D

Presenter: Jesse Green, PhD

Full abstracts are available for online viewing via the ASH Annual Meeting website at www.hematology.org/meetings/annual-meeting. In addition, abstracts will be published online in the November supplemental issue of Blood, the journal of the American Society of Hematology.

About Sana Biotechnology

Sana Biotechnology, Inc. is focused on creating and delivering engineered cells as medicines for patients. We share a vision of repairing and controlling genes, replacing missing or damaged cells, and making our therapies broadly available to patients. We are a passionate group of people working together to create an enduring company that changes how the world treats disease. Sana has operations in Seattle, Cambridge, South San Francisco, and Rochester. For more information about Sana Biotechnology, please visit <https://sana.com/>.

Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements about Sana Biotechnology, Inc. (the “Company,” “we,” “us,” or “our”) within the meaning of the federal securities laws, including those related to the Company’s vision, progress, and business plans; expectations for the Company’s participation at the 64th American Society of Hematology Annual Meeting and Exposition; and expectations for the Company’s presentations at such conference, including regarding the content of such presentations. All statements other than statements of historical facts contained in this press release, including, among others, statements regarding the Company’s strategy, expectations, cash runway and future financial condition, future operations, and prospects, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “aim,” “anticipate,” “assume,” “believe,” “contemplate,” “continue,” “could,” “design,” “due,” “estimate,” “expect,” “goal,” “intend,” “may,” “objective,” “plan,” “positioned,” “potential,” “predict,” “seek,” “should,” “target,” “will,” “would” and other similar expressions that are predictions of or indicate future events and future trends, or the negative of these terms or other comparable terminology. The Company has based these forward-looking statements largely on its current expectations, estimates, forecasts and projections about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy and financial needs. In light of the significant uncertainties in these forward-looking statements, you should not rely upon forward-looking statements as predictions of future events. These statements are subject to risks and uncertainties that could cause the actual results to vary materially, including, among others, the risks inherent in drug development such as those associated with the initiation, cost, timing, progress and results of the Company’s current and future research and development programs, preclinical and clinical trials, as well as the economic, market and social disruptions due to the ongoing COVID-19 public health crisis. For a detailed discussion of the risk factors that could affect the Company’s actual results, please refer to the risk factors identified in the Company’s SEC reports, including but not limited to its Quarterly Report on Form 10-Q dated November 2, 2022. Except as required by law, the Company undertakes no obligation to update publicly any forward-looking statements for any reason.
